

ADDITIONS & REVISIONS

As materials and practices within the utility industry are constantly changing, this book is designed to allow revisions throughout the year. Updates will be posted on The Company's web site 30 days prior to the effective date whenever possible. However, changes due to governmental code and legal requirements may be effective immediately without any prior notification. Any problems that occur as a result of using out of date standards will be the sole responsibility of the book holder and will not be corrected at TEP's and UES's expense.

During the year, updates to the Service Requirements book will be posted on the Internet. Refer to this page at <https://www.tep.com/electric-service-requirements/> to verify any recent updates to the Service Requirements book. This will assure you are using the latest revision.

Throughout the year, Additions & Revisions for 2020

JANUARY UPDATES:

SR-104, page 1
SR-106, page 1
SR-107, pages 1-4
