

This book is published by Tucson Electric Power Company (TEP) and UniSource Energy Services (UES) Santa Cruz County, as a reference and a guide to its regulations and practices for the connection and supply of electric service. The information and requirements, as referred to in TEP's and UES's rate tariffs and schedules and also mentioned in this book, set forth the general conditions under which electric service will be supplied. The information contained in this book is intended primarily for architects, engineers, contractors, and individual electric service applicants engaged in the planning and construction of buildings or in the installation and replacement of equipment that is to be connected to and served from TEP and UES Santa Cruz County electric distribution system.

The standards for materials and construction referred to in this book are necessary to safeguard all electric service applicants, to provide for the maximum utilization of electric service, and are the minimum under which TEP and UES Santa Cruz County will supply electric service. In the event a condition arises that is not specifically covered in this book, the Service Provider's Design Department should be consulted to determine all applicable requirements.

PROPRIETARY MATERIAL

This material is based on assumptions and criteria which may not be valid outside the Tucson Electric Power Company and UniSource Energy Services Santa Cruz County electric system. The material in this book should not be reproduced for the use of other utilities as Electrical Service Requirements.
