**CONTACT INFORMATION
ONE CALL - BLUESTAKE, TREE TRIMMING,
AND OVERHEAD PROTECTION**

Line Location Prior to Excavation

Arizona Revised Statutes, Sec. 40-360.21 through Sec. 40-360.28 requires that persons excavating in a public right-of-way or utility easement obtain information concerning underground utility locations in the area before excavating. Under the statutes, excavation is defined as any disturbance of the ground surface which includes the setting of property pins. To request information or field location of electric lines, call the "Blue Stake Center", 1-800-STAKE-IT (1-800-782-5348) at least two working days prior to excavation.

High Voltage Power Lines And Safety Restrictions

Care must be taken by the customer in making installations of antennas or other facilities near or adjacent to **Company** lines so that under all conditions the installation will not be under or fall across **Company** lines nor contact them in any way, and thereby constitute a hazard to life and property. The customer will not approach (within 10 feet) any overhead high voltage conductors of **Company** without the prior written consent **from Service Provider**. For activity near overhead power lines, see Arizona Revised Statutes 6.4, Sections 40-360.41 through 45. If activity is near overhead power lines, call the "Blue Stake Center," 1-800-STAKE-IT (1-800-782-5348) and request an "overhead spot".

Trimming Trees

The customer must notify the Blue Stake Center and request an overhead spot at 1-800-STAKE-IT prior to trimming in the proximity of overhead conductors of **Company**. The customer shall permit **Service Provider** to trim or remove any trees or other vegetation that may interfere with the safe operation of **Company's** facilities.
